GRILL INSTRUCTIONS

Return on or before: _____

LBC Contact _____ Phone # _____

******* The Booster Club will not provide propane or propane tanks. *******

LIGHTING/STARTING

1. Ensure all four valves in front of grill are turned off. (all the way to the left)
2. Connect your propane tank and Open valve on tank
3. To start the grill, turn the far left lever clockwise and ignite using grill lighter through hole. Repeat with other burners as desired. ***** Never light a grill with the lid shut *****
4. Adjust temperature using same levers as used during lighting. **There should never be a reason to have the levers turned up all the way except for cleaning.**
5. It is suggest that you place drip pans (you provide) on both sides of grill

CLEANING

1. Increase heat by turning all four levers clockwise to burn off any grease. This should take 2 - 5 minutes.
2. Turn all levers off by turning all the way to the left.
3. Brush down Grilling surface with provided brush
4. Leave Grill cover up and let cool to the touch.
5. Generously apply provided cooking oil with cloth or napkin to the surface.
6. Please remember to disconnect your propane tank prior to returning.
