They are extraordinary people who voluntarily tackle the enormous job of governing our school district. Their actions and decisions affect the present and future lives of our children.

In & Around the Jr/Sr High School...

Lakeview Academic/Career Fair!!

When: January 29th, 2018--- 4:00-8:00pm

Where: The Lakeview Jr.-Sr. High School Commons area.

Why: Over 20 colleges and businesses will be in attendance!

For younger students it is a perfect time to start asking questions about the requirements needed for potential colleges or learning the skills and education you need for the careers you want!

Hydroponically (no soli) grown vegetable and the demand for organic/natural grown produce is expected to propel in the global market in the future.

Farmers of the future will look for ways to break from conventional ways of producing to serious looks at hydroponic farming. Hydroponics save water, land, and use less fertilizers and may offer a simple solution to climate control. In simplest terms, hydroponics has advantages of higher yields in a limited space and require 90% less water than compared to soil production.

Lakeview students by utilizing our Get Growing Grant resources and the use of our "Tower Gardens" (we have 6), will learn of these future trends in agriculture. Some of our goals are having food produced for use in our schools salad bars (we already have had lettuce), measuring and graphing growth of our vegetables at the elementary level, and the exposure for all curriculum levels to the different ways people can view farming.

Artist of the Month

The January Artist of the Month is senior, Megan Ferris who is taking Drawing class this semester. Her parents are Carolyn and Ryan Ferris. Students reproduced a black and white photograph using charcoal. This was her first portrait!

The Lakeview One Act team performed FLOW this year by Dominic Orlando. Becky Vinson came on board as assistant coach for the year and there were twenty-five students who signed on for the challenge of putting on a great performance. The script this year was a bit challenging but the students put in a lot of hard work to bring it to life. At the Conference meet in Grand Island this year, the team placed 9th -- this motivated the students to work even harder and over the next 5 days many changes were made to improve on the performance. On December 1st, the Lakeview One Act team took the stage for the District meet at CCC in Columbus and had their best performance of the season! The team placed 4th and had 7 students recognized as outstanding actors: Halla Paschold, Hayden Nelson, Ethan Vinson, Madison Mahoney, Emily Cunningham, Andrew Herley, and Emily VanCleave. Congratulations to the One Act team this year and thanks for making it a great year!

Congratulations Saylor Eberhart!

Saylor was nominated by her teachers to represent the Lakeview Junior High School Lions Club Student of the Month.

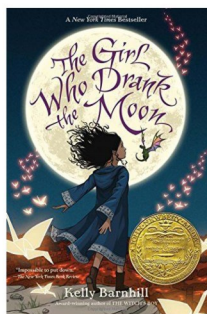

Saylor's teachers wrote about her outstanding character and academic dedication.

Way to go Saylor!

JV FOOTBALL REPORT

The 2017 JV season was highlighted with victories vs. Twin River, David City, North Bend, Scotus, Schuyler, and Central City. The JV team played with good effort every week and finished the season with a 6-2 record. The two losses that Lakeview suffered came in two very competitive games against Columbus High and Wahoo Neumann. The JV players were very coachable all season and it was fun to see them play each and every week. The JV team improved every week and prepared themselves for a great 2018 season.

TEAM STARTS OFF-SEASON CONDITIONING

Off-season football conditioning started in December for the football players who are not involved in a winter sport. It is very important that our team keeps working hard this off-season. The following players are doing their part to make sure that we get back to the playoffs during the 2018 season.

12th - Brock Foltz, Dylan Johnson, Kaylob Kobza, Aaron Peterson, Kyle Reeves, Dylan Wyatt

11th – Carsten Loseke, Kade Stromberg

10th – Layne Forney, Dylan Jensen, Cameron Schwarz

These players are going through an extra lifting and agility cycle each day after school. In lifting we focus on a specific muscle group each day that will benefit them in all athletics. We also take them through different agility drills that improve quickness, strength, and flexibility. I have seen good improvement overall. However, there is always room for us to improve our work ethic. It will be important for our athletes to understand that working hard now will pay dividends next season.

COLLEGE FOOTBALL UPDATE: JACK SHADLEY-DOANE, TATE JANSSEN-CONCORDIA, DAKOTA PROROK- NEBRASKA WESLYAN

Jack Shadley finished up a stellar career at Doane this past season. After missing the first couple games this season Jack went on to lead the Tigers offense for the remainder of the season. Tate Janssen started his career at Concordia this past fall and will compete for the starting kicking duties this coming fall. Dakota Prorok made a big impression on NWU coaches this past fall. He will be in line to not only start on defense but special teams next fall. Congrats to all three of these wonderful alumni.

SPECIAL THANKS

The team would like to thank Zach Hoadley and Ryan Stegman for serving as assistant coaches this past year.

SPRING SPORTS

Please encourage your son to participate in spring sports. It is very important for our student athletes to stay involved in competition year around. Romy Schatz was the winner of the Fas-Break Auto Glass Achievement Award. This award is given to a student who shows a concerted effort to raise their grades, advance in a personal achievement, or who shows an awareness in their community and works to meet those needs.

A Byte from the Shell Creek Computer Lab

December 4th through 8th was a busy week in the Shell Creek computer lab with students helping space cadets find missing space ship parts, puppies looking for their owners, and monsters gobbling candy. These were a few of the adventures the 2nd through 6th graders enjoyed as part of the Hour of Code.

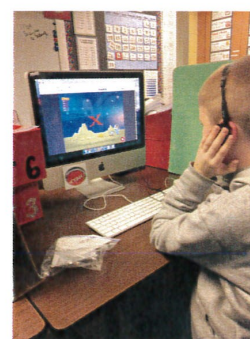

The Hour of Code is held in conjunction with Computer Science Education Week. The Hour of Code (HOC) began four years ago through Code.org as a way to introduce students to the field of computer science by doing one hour of coding. To date, over 100 million students have tried an hour of coding.

This is the third year that Shell Creek Elementary has hosted an HOC event and the first time that second graders had the opportunity to participate.

Student experiences varied from grade level to grade level. Many younger students felt that coding was “too hard” in the beginning while older grades thought that the beginning levels were “too easy.” By the end of the week, most students were eager to do more and asked if they could continue at home.

If your student is interested in practicing more coding and programming, be sure to check out www.tynker.com or scratch.mit.edu. These sites are great for introductory lessons. More advanced learners may want to check out www.codecademy.com or www.learnpython.org.

In & Around Christ Lutheran School...

On Nov. 21, Christ Lutheran held its Friendship Soup Day. Prayer Partners of the students were invited to the church basement to share in some Friendship Soup. Each school family brought an ingredient to make the soup. The ingredients were combined making the delicious Friendship Soup. Students and their prayer partner filled out an Advent calendar with

different topics that they could pray for during the season of Advent. Through this activity, friendships were made and strengthened. The pumpkins that adorned the tables, which were made by the students, were presented to the prayer partners. It was a great time learning about the power of prayer in a multigenerational setting.

The first quarter Fasbreak Award was presented to Briggs Klug. Congratulations Briggs on being a great example of a hard worker, encourager, and classroom helper.

MYPLATE GUIDE TO SCHOOL LUNCH

for Families

GRAINS

Whole grains give kids B vitamins, minerals, and fiber to help them feel fuller longer so they stay alert to concentrate at school.

VEGETABLES

Vegetables

A variety of vegetables helps kids get the nutrients and fiber they need for good health.

MILK

Dairy

Low-fat (1%) or Fat-free milk. Children and teens need the calcium, protein, and vitamin D found in milk for strong bones, teeth and muscles.

PROTEIN FOODS

Meat, poultry, fish, dry beans, peas, eggs, nuts, and seeds provide many nutrients including protein and iron. Portion sizes are based upon the nutrition needs of children in various grade groups. School meals also allow cheese, tofu, and yogurt to count as the meat/meat alternate in the school lunch.

FRUITS

Fruits

Every school lunch includes fruits as well as vegetables. Only $\frac{1}{2}$ of the fruits offered may be 100% juice, since whole and cut-up fruits have more fiber.

Visit teamnutrition.usda.gov for additional tips and activities.

HOW DOES SCHOOL LUNCH HELP FAMILIES?

Provides a balanced meal

It meets one-third of the nutrition needs of most children for the day.

Helps kids learn where foods come from

Farm to school programs are in 42 percent of schools which increase kids access to locally produced foods and learning activities such as farmers' visits and school gardening.

Saves time

If you spend 10 minutes a day packing lunch, that adds up to 30 hours (1,800 minutes) each school year.

Supports learning at school

Research shows that kids with healthier eating patterns have better academic performance.

"We grow fruits and vegetables in our school greenhouse, which are harvested and given to the cafeteria to serve on the salad bar. It's great because the landscaping class gets involved, the leadership classes get involved, and even all the marketing plan classes get involved."

Nebraska student

HOW CAN FAMILIES HELP THEIR CHILDREN ENJOY SCHOOL LUNCH?

- Try new foods at home. Kids need many opportunities to taste a new food to "get used to it."
- Talk with your child about what's on the menu. Make sure he or she knows about all the foods that are included in his or her school.
- Eat lunch at school with your child. Learn more about what's offered and meet school nutrition staff.
- Encourage your child or teen to join in taste-testing events or surveys about school lunch, when available.

Visit **Choosemyplate.gov/Families** for additional tips and activities for families.

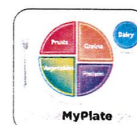

The National School Lunch Program is a federally assisted meal program operating in public and nonprofit private schools and residential child care institutions. It provides nutritionally balanced, low-cost or free lunches to children each school day.
